

Trainee Pilot:		Date:		Aircraft type:	
Training Pilot:		Time:		Tail Number:	

PRE/POST FLIGHT DUTIES											
Sequence		1	2	3	4	Comments					
100	Preflight briefing										
101	Preflight inspection										
102	Use of checklist										
103	Aircraft start										
104	Aircraft shutdown										
105	Radio Procedures										
106	Weight and balance										
AIRCRAFT HANDLING											
Sequence		1	2	3	4	Comments					
200	Takeoff into hover										
201	Hovering flight										
202	Transitions to forward flight										
203	Circuits										
204	Transitions to hover										
205	Landings from the hover										
206	Maximum power takeoff										
207	Steep approach										
208	Off-levels										
209	Confined areas										
210	Steep turns										
211	Airmanship										
EMERGENCY PROCEDURES											
Sequence		1	2	3	4	Comments					
300	Non-critical emergencies										
301	Critical emergencies										
302	Rejected takeoff										
303	Engine restart in flight										
SPECIALIZED PROCEDURES											
Sequence		1	2	3	4	Comments					
400	Waterbucket										
401	Flight in low visibility										
402	Hover exits										
403	Longlining										
SPECIFIC EMERGENCIES											
300 Non-critical Emergencies		1	2	3	4	301 Critical Emergencies		1	2	3	4
A	Hydraulic failure					A	Engine fire on ground				
B	Chip Light					B	Engine fire in flight				
C	Generator failure					C	Cabin / baggage fire				
D	Inverter failure					D	Electrical fire				
E	Fuel Filter					E	Engine failure				
F	Hot start					F	Autorotation (Straight ahead)				
G	Failure to light					G	Autorotation (180°)				
H	Engine oil press / temp					H	Autorotation (Hover)				
I	Xmsn oil press / temp					I	Governor failure				
J	Boost pump failure					J	Directional control failure
